Publications that cite the use of my book, programs and documentation

Last updated January, 2021

If you have published a paper using these programs that you would like me to include here, please email the paper or a citation to it to Tom O'Haver at toh@umd.edu

13. de Aragão, Bernardo José Guilherme, and Younes Messaddeq. "PEAK SEPARATION IN SPECTRAL
ANALYSIS." (2007). Link.

27. "Prolonged stimulus exposure reveals prolonged neurobehavioral response patterns, Brett A. Johnson,

80. Tripathi, Ashish. THE NEW IMAGE PROCESSING ALGORITHM FOR\ QUALITATIVE AND QUANTITATIVE STM DATA ANALYSIS. Diss. 2012.

126. MS Freeman, ZI Cleveland, Y Qi , Enabling hyperpolarized 129Xe MR spectroscopy and imaging of pulmonary gas transfer to the red blood cells in transgenic mice expressing human hemoglobin”, Magnetic Resonance in Medicine, Volume 70, Issue 5, pages 1192–1199, November 2013

144. M. Rahmat, W. Maulina, Isnaeni, Miftah, N. Sukmawati, E. Rustami, M. Azis, K.B. Seminar, A.S.

152. Sterling, Ryan, and Nathaniel Todd. "USING NEURAL SIGNALS TO PROVIDE INPUT FOR COMPUTING APPLICATIONS IN AUTONOMOUS PROSTHETICS." [PDF] from 136.142.82.187

164. Oliveira, Raphael Rocha de. "Modelos de calibração multivariada por NIRS para a predição de características de qualidade da carne bovina." (2014). PDF) from ufg.br

179. P Sevusu , Real-time air quality measurements using mobile platforms, 2015, Thesis, [PDF] from rutgers.edu

200. Maistry, Nattele. Investigating the concept of Fraunhofer lines as a potential method to detect corona in the wavelength region 338nm-405nm during the day. Diss. 2015.

208. CE Funes, EF Cromwell System and method for determining a baseline measurement for a biological response curve, US Patent App. 13/308,021, 2

221. Top-down modulation of stimulus drive via beta-gamma cross-frequency interaction. CG Richter, WH Thompson, CA Bosman, P Fries - bioRxiv, 2016 – biorxiv.org

290. Cuss, Chad W., Iain Grant-Weaver, and William Shotyk. "AF4-ICPMS with the 300 Da Membrane To Resolve Metal-Bearing “Colloids”< 1 kDa: Optimization, Fractogram Deconvolution, and Advanced Quality Control." *Analytical Chemistry* 89.15 (2017): 8027-8035.

344. Maddalena, Riccardo, Christopher Hall, and Andrea Hamilton. "Effect of silica particle size on the

380. Fayolle, Clemence, Mélody Labrune, and Jean-Philippe Berteau. "Raman spectroscopy investigation shows that mineral maturity is greater in CD-1 than in C57BL/6 mice distal femurs after sexual maturity." Connective Tissue Research (2019).
