Course Syllabus

MBAF 6200: Advanced Corporate Finance
Professor Russ Wermers

Class: Business 211 on Mondays and Wednesdays, 11:00 a.m.-12:15 p.m.
My Office: Business 473
Office Phone: 492-0890
E-mail: wermers@colorado.edu
WWW: http://www-bus.colorado.edu/faculty/wermers
Office Hours: Mondays and Wednesdays, 3-5 p.m. (or, by appointment)

Course Objectives:

1. To give you marketable skills in corporate finance
2. To introduce you to both the theory and application of some basic corporate finance topics
3. To prepare you to read the WSJ and the finance literature with a more sophisticated understanding

Final Grade:

Quizzes/Final Exam (Best 4 out of 5) 70%
Case Discussions 30%

Textbooks:

Grinblatt and Titman (GT), Financial Markets and Corporate Strategy, 1996
(manuscript; available about September 4 at UMC Bookstore—please call them to confirm!).
Case packet (available about September 4 at UMC Bookstore—please call them to confirm!).

Cases:

I have assigned a case for each major topic of the course. These cases provide an application of the theories presented in the readings. I will call on groups to discuss certain aspects of each case, so be prepared to discuss anything about every case. Your grade on “Case Discussions” above (30% of your total grade) will be a group grade based on how well your group contributes to the understanding of the case by the class. You must form groups of four during the first week of class, which will stay together for the entire semester. Your group should come prepared to discuss each case, which means an analysis of the issues, made more insightful by an analysis of the numbers. I recommend compiling a neat, concise set of notes for your group to support your discussion in class.

Homework:

Homework assignments should be fully understood before the quiz for each topic of the class. It will not be collected, but solutions will be handed out or outlined in class. I highly recommend that you spend time attempting every homework problem, since this tests whether you understand the material. Some quiz questions will be similar to homework. Your performance on quizzes and the final will depend on you faithfully keeping abreast of the reading and homework assignments. In the past, students who are less well-prepared when starting the class have often been able to achieve an above-average grade (i.e., an A) by working hard!
**Quizzes:**

There will be no midterm. Instead, a quiz (about 60 to 75 minutes long) will be given on four Mondays on the topic covered over the prior three or four weeks. This quiz will cover material related to the prior few weeks of (1) class lectures, (2) homework, and (3) cases. For example, the first quiz will be given on September 16 and will cover everything on the syllabus for Week 1, Week 2, and Week 3. **Please note:** There will be no makeup quizzes, unless you have an officially approved (by the College of Business, Graduate Office) absence, but only your best four out of five quizzes/final will be counted. If you have an officially approved reason for missing more than one quiz, then I will base your quiz grade on the number of quizzes that you take, without penalizing you for missed quizzes.

**Final Exam:**

The last quiz will be held during the final exam period and will count exactly like all the other quizzes. It will cover only the final topic in the class, and it will be held in our same classroom on Saturday, December 14 from 3:30 p.m. to 6:30 p.m. (although it should only take about 60-75 minutes). If you are lucky enough to have done extremely well on your first four quizzes, then you have the option of not taking the final quiz; however, I recommend taking all quizzes and the final to maximize your chances for the highest grade possible.
