Household me takes up less CO₂ than college me because...

- Household uses solar electricity
- Dorms take up a lot of energy because multiple people are living in it

Household me takes up less CO₂ than college me because...

- I travel a lot to get back home as a college student
- My household cars are electric

Household me takes up more CO₂ than college me because...

- I don't take any trips on a plane as a college student
- In a household, I take more trips to Sri Lanka
