

# AutoEncoders II (DRAFT)

Mark A. Austin

University of Maryland

*austin@umd.edu*

*ENCE 688P, Fall Semester 2021*

November 27, 2021

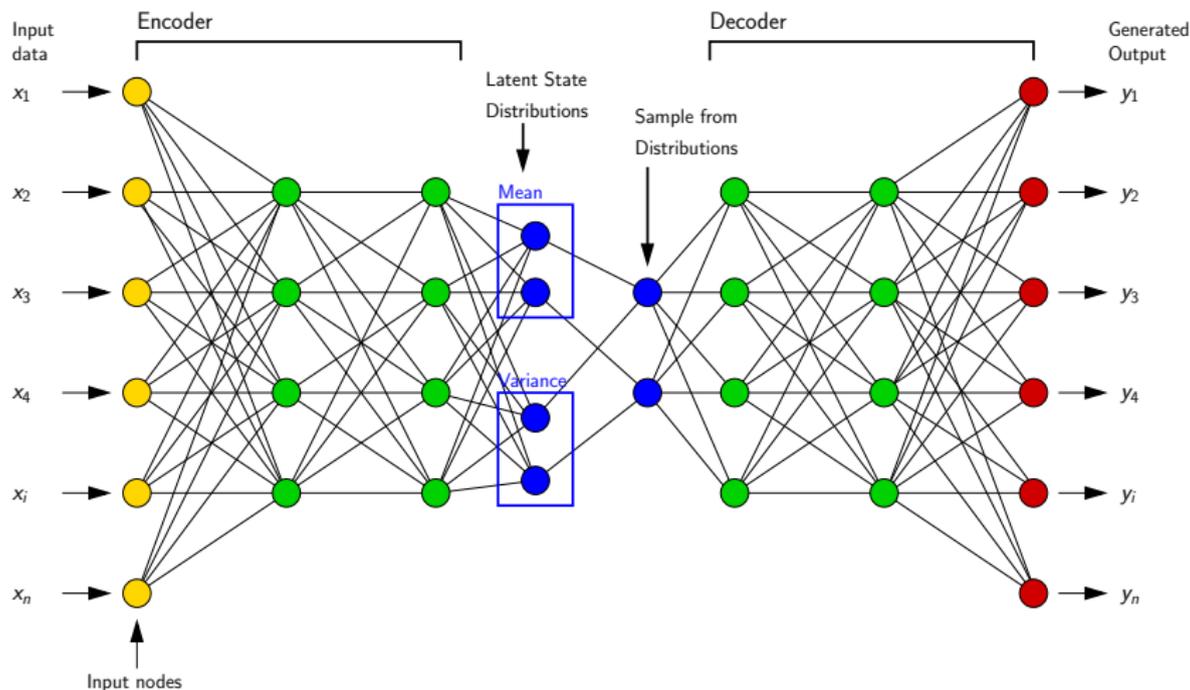

# Overview

- 1 Variational AutoEncoders
  - Basic Idea and Applications
  
- 2 Examples
  - Simplest Example

# Variational AutoEncoders

# Basic Idea and Applications

## Variational AutoEncoders (Generative Models)

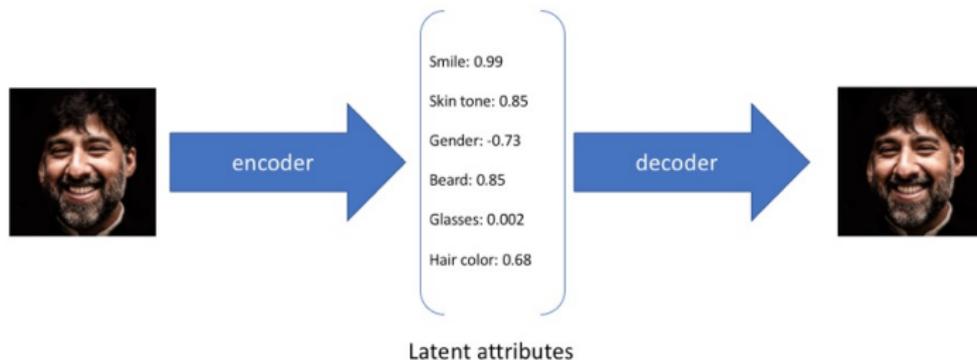

# Classification of Machine Learning Problems

Standard Autoencoders vs. Variational Autoencoders:

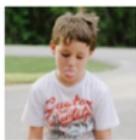

- A **standard autoencoder** outputs a **single value** for each **encoding dimension**.
- **Variational autoencoders** provide a **probability distribution** for each latent attribute.

**Example:** Single value representations for latent attributes:

# Classification of Machine Learning Problems

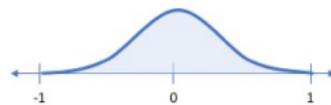

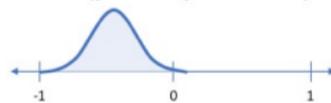

**Discrete Value and Probability Distribution:** Representations for smile latent attribute:

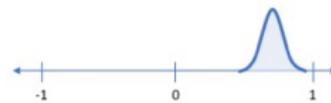

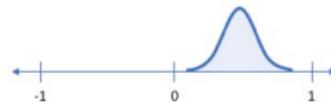

Smile (discrete value)

Smile (probability distribution)

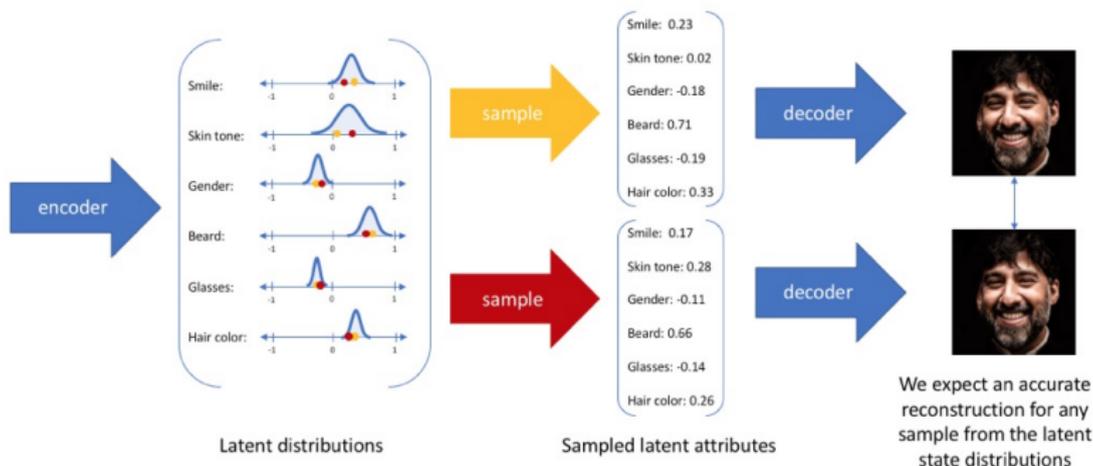

vs.

# Classification of Machine Learning Problems

**Image Reconstruction:** sampled from latent distributions ...
