

CPSG101  
Carbon  
Footprint  
Infographic  
by Deena  
Habash

Myself

👣 = 10.95 tons

🏠 = 66 trees

🚗 = 0 trees

✈️ = 33 trees

My future family

👣 = 54.14 tons

🏠 = 503 trees

🚗 = 1 tree

✈️ = 70 trees

Why is there a  
difference?

My future family  
accounts for 5  
times the footprint.  
I also gave myself a  
lavish lifestyle  
where I travel a lot  
more than I do now.
