I am going to ask some questions about the health of your family in the last month. I want to know what you and the members of your family do when there is an illness.
 Try to remember as best you can what you thought early in the episode.
 Has anyone in the family been sick in the last month? six months? year?

<input type="checkbox"/>	Record the illness episode number (starting from 1)	<input type="text"/>	<input type="text"/>
	Record the name of the person who was sick	<input type="text"/>	<input type="text"/>
	What is his/her relation to the head of household?	<input type="text"/>	<input type="text"/>
	Who is responsible for this individual?	<input type="text"/>	<input type="text"/>
	When did the illness begin?	<input type="text"/>	<input type="text"/>
	Symptoms?	<input type="text"/>	<input type="text"/>

<input type="checkbox"/>	Record the illness episode number	<input type="text"/>	<input type="text"/>
	Record the name of the person who was sick	<input type="text"/>	<input type="text"/>
	What is his/her relation to the head of household?	<input type="text"/>	<input type="text"/>

Patient NAME

Episode number

Respondent Name

What were the first complaints that NAME experienced (not the diagnosis)?

Which of these complaints made NAME decide to seek assistance?

HEAD	LIMB	GENITALS AND SKIN	CHILDREN
01 headache	15 general injury	29 urethral discharge	43 slow growth
02 fever	16 broken bone/ fracture	30 urinary complaints	44 convulsions
03 running nose	17 deep cut	31 blood in urine	45 epilepsy
04 cough	18 pain in extremities	32 skin lesions	46 worms (seen)
05 sore throat	19 swelling in extremities	33 genital lesions	47
06 eye problems	20 accident/ trauma	34 rash	48
07 ear problems	21 head (eye) injury	35 abscess	49
STOMACH	GENERAL	HEALING	WOMEN
08 loss of appetite	22 chest pain	36 protection	50 irregular menses
09 vomiting	23 coughing up blood	37 charm	51 blood loss
10 diarrhoea	24 short of breath	38 poisoning	52 ante-natal check up
11 constipation	25 lower back pain	39 Infertility	53 abortion
12 abdominal pain	26 general weakness/ malaise	40 Impotence	54 miscarriage
13 distended abdo	27 weight loss	41	55
14 stomach ache	28 high blood pressure	42	56

If they give the diagnosis put the name here

How many days was the patient sick before that person sought help?

If the patient was bedridden, for how many days?

Could the patient perform the following tasks before he or she was sick (B), and then during (S)?

For adult males ask:

Walk 1 hour with cattle to grazing

B | S

Hold a cow for treatment or bleeding

B | S

For adult female ask:

Go 20 minutes walk and carry water

B | S

Cook food for family

B | S

For all adult patients ask:

Bathes themselves

B | S

Work in Shamba

B | S

For all patients over 5 ask:

Eat with good appetite

B | S

Walk 20 minutes

B | S

For all patients under 5 ask:

Eat with good appetite

B | S

Plays appropriately

B | S

In your opinion how severe was the illness? (read these out loud)

1 we thought he/she might die 2 very severe 3 severe 4 mild 5 almost nothing

Where did you **first** go for **medical** help?*put name of person, or facility and location (if necessary)*

What was the result of the visit to this provider?

1 died

4 went to another provider

2 cured

5 returned home (without cure)

3 well enough

6 referred

7 still under treatment

*Remind them that people can change their opinions about which places are good and which are not good.**Maybe they used to think one was very good and now they don't. Maybe they used to think one was bad and now they think it is good.*

Would you return if you suffered from the same condition?

If no, why not

Treatment of Episode (visit)

Interviewer

Date

Name of person sick

Episode Number

Visit Number

1 Was there a consultation? <i>If no, go to question number 7</i>		
2 At this location what was the title of the person you consulted with? (<i>write out title</i>) <i>put the title they give (doctor, nurse, etc)</i>		
3 Did you pay for consultation? <i>If no, skip to question 7</i>		
4 How did you pay? <i>1 cash 2. In kind 3 both</i>		
5 How much was given in kind?		
6 What was given in kind?		
7 Were drugs prescribed? <i>If no skip to question number 12</i>		
8 How much did you pay for the drugs you received? <i>put 0 if they were free</i>		
9 Did you get all of the drugs there? <i>if yes, skip to question 12</i>		
10 If not, why not? <i>1. not available, 2. Too expensive, 3. I have my own supply, 4. I prefer to buy drugs elsewhere</i>		
11 Where did you get the additional drugs?		
12 Did you travel or walk to the facility <i>if no, skip to 16</i>

Soma kwa makini kama ilivyoandikwa.

I am going to ask you some questions about the advice that you give to people when they or their children are sick and they come to you for help. I will describe to you 6 types of patients and ask you where you would tell them to seek health care. If your answer would depend on something about the patient we have not told you, tell us this.

1 A woman comes to you with a 4 year old boy. She says that he has had a fever for one week. Now he is vomiting and the sickness is worse.

Questions

Is the fever steady, Is the fever in the evening or morning, etc.
ANS Some times he has a fever, other times he looks fine.

Does he shiver or sweat
ANS yes

Does he have a cough
ANS yes

Is the cough severe, does he have sputum, is there blood in his cough?
ANS no

Does he have difficulty breathing?
ANS No

Is he active, is he sleeping, does he play?
ANS No. He is awake, but tired and not very active

Other question. Write question here:
ANS In general, if the question is about the physical state of the boy, everything else is normal

Physical examination

Write down what the elders says he would do. Where he would send this patient?

2 A woman comes to you who is about 30 years old. She complains that she is suffering from pain [indicate right lower abdomen] in her abdomen. She has been suffering from this pain on and off for

Questions

Where is the pain strongest
ANS [Point to right lower abdomen]

Is the pain sharp?
ANS Not too sharp

Does it hurt anywhere else?
ANS The pain will move around towards the back

Is the pain constant?
ANS It is on and off

Does she have children
ANS Yes. She has three children. And she is not pregnant

Is she married?
ANS Yes

Does she have normal period
ANS Not quite normal

Other question. Write question here: _____
ANS In general, if the question is about the physical state of the woman, everything else is normal

Physical examination

Write down what the elders says he would do. Where he would send this patient?

3 A woman comes to you with a one year old boy who has had diarrhea and vomiting since yesterday.

Questions

How often does he vomit?
ANS He vomits at any feed, and has diarrhea soon after

What does the diarrhea look like?
ANS Water

Are you breastfeeding this child, does he feed well?
ANS Yes I am breastfeeding, no he is not eating well

Is he tired?
ANS Amechoka sana

Does he have fever?
ANS No

Other question. Write question here: _____
ANS In general, if the question is about the physical state of the woman, everything else is normal

Physical examination

Write down what the elders says he would do. Where he would send this patient?
