

Current Footprint:

9.78 Metric Tons of CO₂/Year

Breakdown:

- Household/Food - 4.03 Tons
- Transportation - 0.51 Tons
- Air Travel - 0.24 Tons

Future Household:

(Myself, my wife, and 3 future children)

19.04 Metric Tons of CO₂/Year

Breakdown:

- Household/Food - 13.8 Tons
- Transportation - 0 Tons
- Air Travel - 0.24 Tons

CPSG101 Carbon Footprint Infographic

By: Landon Maki

US Averages in Tons of CO₂/Year:

- Household/Food - 4.47 Tons
- Transportation - 4.82 Tons
- Air Travel - 0.52 Tons

Why Such A Difference?

- More people means more food waste
- Bigger house means more energy use
- Electrical cars means less CO₂ emissions
- Solar panels means less energy use
