

CPSG 101 Carbon Footprint Infographic

Nandhini Jey

Present Day Admissions

Total Carbon Footprint:
10.00 tons
- Equivalent to 143
trees

Hose Hold	67 trees
Transportation	44 trees
Travel	32 trees

Hypothetical Adult Version 3 People

Total Carbon Footprint:
39.90 tons
- Equivalent to 527
trees

Hose Hold	289 trees Per Capita: 96.3 trees
Transportation	73 trees Per Capita: 24.3 trees
Travel	22 trees Per Capita: 7.3 trees

The reason why my carbon footprint is so much higher in my adult version is because there are more people involved, so more resources get taken up. Furthermore my living style will be much more different as I grow older such as a new house and vehicles which is why my carbon footprint drastically increases.
