

# PRESENT VS. FUTURE: MY CARBON EMISSIONS

by: Rahulreddy Pinninti

## PRESENT

number of people living in household: 4

### ANNUAL EMISSIONS

Goods and Services are an average that is added to every individual. Trees represent the emissions in form of carbon

## FUTURE

number of people living in household: 4

### ANNUAL EMISSIONS

Goods and Services are an average that is added to every individual. Trees represent the emissions in form of carbon
