

CPSG101 Carbon Footprint Infographic

Sanzhar Beisembayev

Myself Now

4.71 t CO₂/year

0.81 t CO₂/year

0.3 t CO₂/year

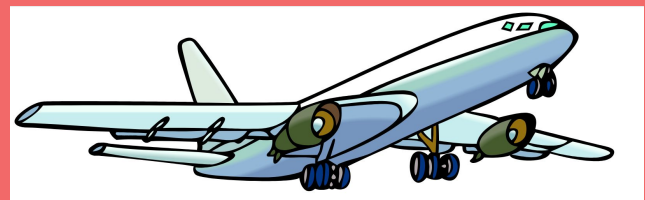

Future Family of 4

13.38 t CO₂/year

5.66 t CO₂/year

0.3 t CO₂/year

Total
Comparison
(in t CO₂/year)
10.82 < 24.34

There is an increase in my carbon footprint due to there being more people who contribute to it. I will have to feed three more people in the future, and will have to drive much more, increasing my total carbon footprint.
