

# CPSG101 CARBON FOOTPRINT INFOGRAPHIC

SARAH TARR

## FUTURE FAMILY:

- 1.Partner
- 2.Child
- 3.Myself

	Household and Food	Transportation	Travel
Myself	2.95	0.15	0
Future Family	2.23	0.07	0.4

## REASONS FOR DIFFERENCES:

**Household and Food:** In the future, I will have more of a choice in where I get my energy and what energy efficient appliances I use.

**Transportation:** My transportation is higher now because I don't drive an electric car and I also don't take public transportation very frequently.

**Travel:** My travel footprint will be higher in the future because I will have money to pay for trips and vacations.
