

Bug Study
Yellow Room
2010- 2011

Phase 1

Phase 1- We will gather prior knowledge about bugs and begin exploration

What do you know about bugs?

What is a bug? We created a definition.

What bug names do you know?

Where do bugs live? What do they eat?

Bug Hunt homework

Phase 2

Phase 2- Let's answer our questions through field experiences and research

Field Trips

Phase 3

Phase 3- Culmination and showing what we learned

Ben S.- Fire Ant

- They bite with their jaws called mandibles.
- They live with all the other ants.
- Fire ants can bite people and animals. Their bite hurts.
- They bite and sting.
